

requested, a bill for such fee. The bill will contain an itemized statement of the applicable costs, and instructions on the time and manner of payment. Payment must be made in accordance with the bill. If the recipient of the bill objects to the reasonableness of the costs assessed he or she may, within 30 days of receipt, file written objections with NOAA at the address stated in the bill. NOAA will promptly review the written objections and within 30 days mail the final determination to the party who filed them. NOAA's determination will constitute final agency action on the matter.

§ 904.508 Voluntary forfeiture by abandonment.

(a) The owner of seized property may voluntarily forfeit all right, title, and interest in the property by abandoning it to NOAA. Voluntary forfeiture by abandonment under this section may be accomplished by various means, including, but not limited to: expressly waiving any claim to the property by voluntarily relinquishing any right, title, and interest by written agreement or otherwise; or refusing or otherwise avoiding delivery of returned property; or failing to respond within 90 days of service of any certified or registered notice regarding a return of seized property issued under § 904.510(b).

(b) Property will be declared finally forfeited by abandonment, without recourse, upon a finding of abandonment by NOAA.

§ 904.509 Disposal of forfeited property.

(a) *Delivery to Administrator.* Upon forfeiture of any fish, wildlife, parts or products thereof, or other property to the United States, including the abandonment or waiver of any claim to any such property, it will be delivered to NOAA for storage or disposal according to the provisions of this section.

(b) *Disposal.* Disposal may be accomplished by one of the following means unless the property is the subject of a petition for remission or mitigation of forfeiture or disposed of by court order:

(1) Return to the wild;

(2) Use by NOAA or transfer to another government agency for official use;

(3) Donation or loan;

(4) Sale; or

(5) Destruction.

(c) *Purposes of disposal.* Disposal procedures may be used to alleviate overcrowding of evidence storage facilities; to avoid the accumulation of seized property where disposal is not otherwise accomplished by court order; to address the needs of governmental agencies and other institutions and organizations for such property for scientific, educational, and public display purposes; and for other valid reasons. In no case will property be used for personal purposes, either by loan recipients or government personnel.

(d) *Disposal of evidence.* Property that is evidence may be disposed of only after authorization by the NOAA Office of General Counsel. Disposal approval usually will not be given until the case involving the evidence is closed, except that perishable property may be authorized for disposal sooner.

(e) *Loans*—(1) *To institutions.* Property approved for disposal may be loaned to institutions or organizations requesting such property for scientific, educational, or public display purposes. Property will be loaned only after execution of a loan agreement which provides, among other things, that the loaned property will be used only for noncommercial scientific, educational, or public display purposes, and that it will remain the property of the U.S. Government, which may demand its return at any time. Parties requesting the loan of property must demonstrate the ability to provide adequate care and security for the property. Loans may be made to responsible agencies of foreign governments in accordance with the Convention on International Trade in Endangered Species of Wild Fauna and Flora.

(2) *To individuals.* Property generally will not be loaned to individuals not affiliated with an institution or organization unless it is clear that the property will be used in a noncommercial manner, and for scientific, educational, or public display purposes which are in the public interest.

(3) *Selection of loan recipients.* Recipients of property will be chosen so as to
